Massively-parallel-processing (MPP) EOS Cloud Cluster Powered by AIHPC

By TChain EOS Team

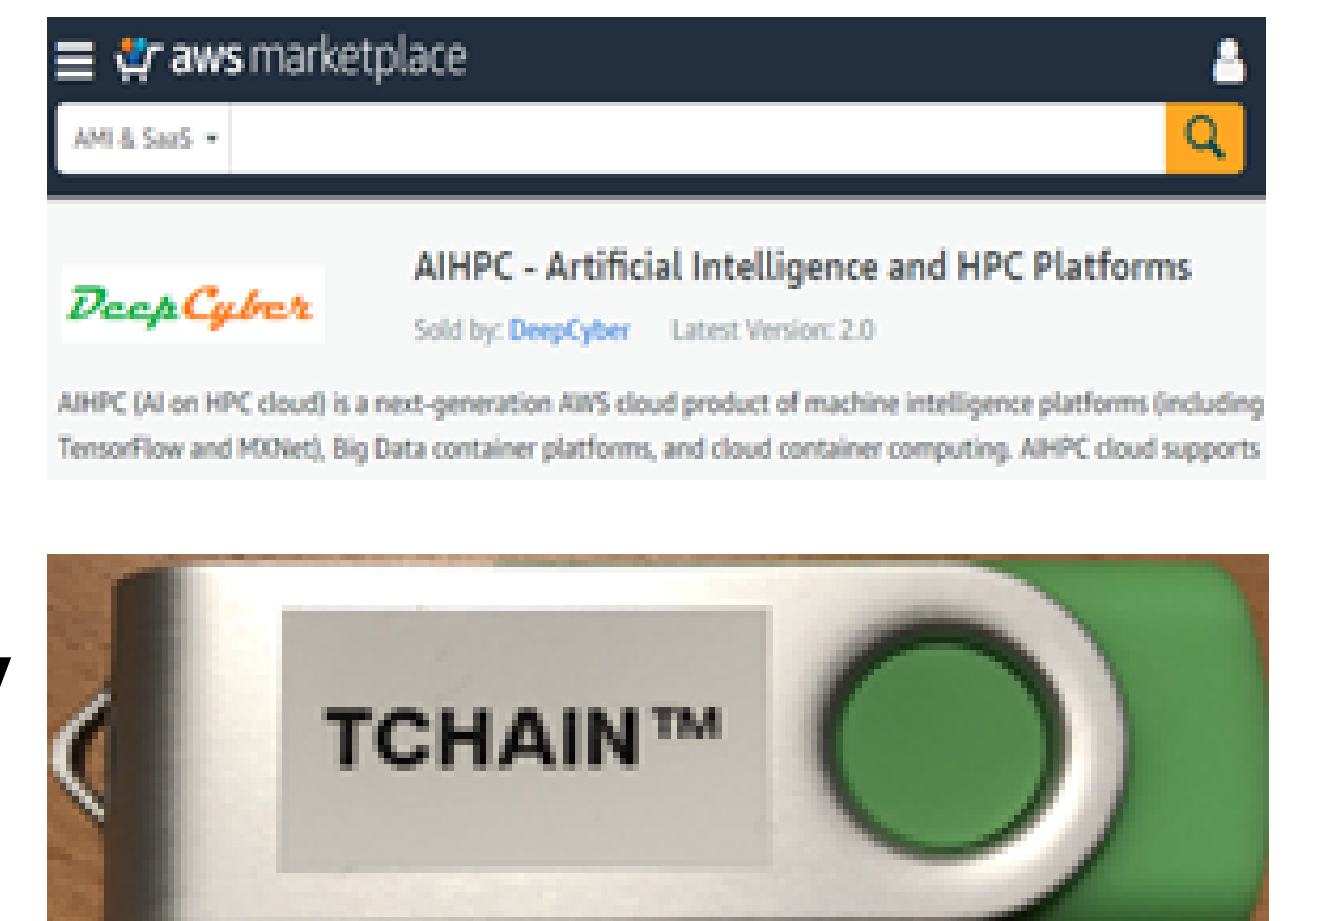

1 Mission - for EOS Supremacy

- Enable super computing and **massively parallel processing** (MPP) capability for EOS production nodes by the AIHPC cloud cluster platform
- Provide a unique **superior technical offering** for EOS production nodes
- Enable location diversification for the EOS network through TChain/AWS data centers across the world

2 Differentiation

- Unique HPC cloud cluster to **materialize 1 million TPS** at platform and infrastructure layers, **with alive TChain EOS SuperNode BP**
- Unique **quantum** security by salting SHA-256 hashes and **hardware wallet** security; secures smart contracts by AI-powered TChain **Security Analytics (TSA)**
- Decentralized** peer-to-peer exchange; easier hard folk than ethereum; mines **base coins** and creates **ERC20** tokens
- Pure advanced **American** technology offering. TChain EOS shall never offer payment for votes

3 Team and High-end Ecosystem

Strong team with PhDs and faculty from **top U.S.** universities

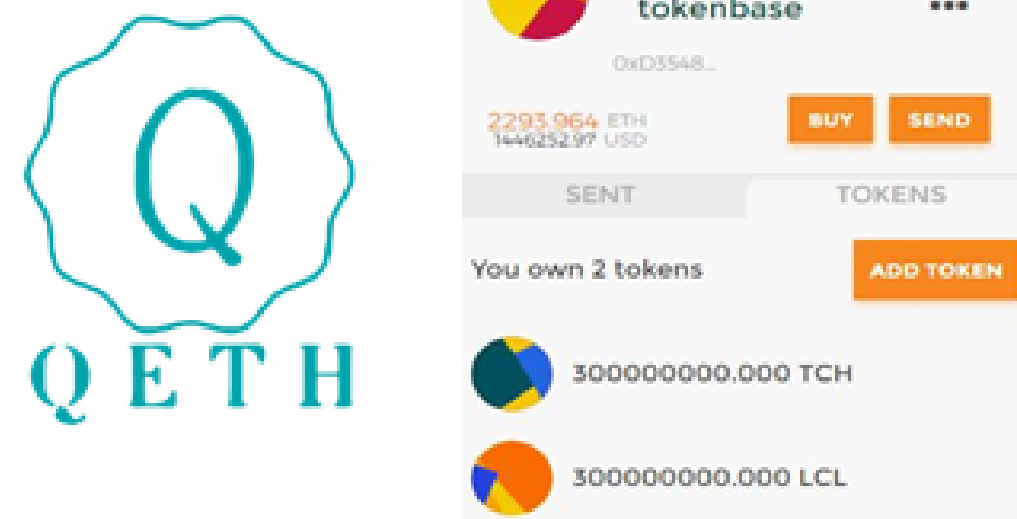

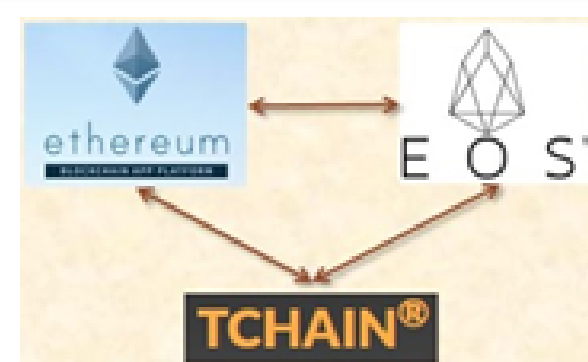

- Dr. Gewei Ye, Former Johns Hopkins Faculty, TChain Founder
- Dr. Mike Addison, Stanford PhD
- Dr. Ivan Ruzic, Monash University
- Dr. Chunyu Zhang, PI and faculty, Johns Hopkins Medical School

- Dr. Shuo Gu, George Washington PhD
- Dr. Tsoi, Chi Chuen Cheney, Hong Kong Blockchain Association
- Dr. Yifeng Yan, Princeton PhD, Expert of Blockchain Network AI
- Dr. Jun Zhong, Johns Hopkins PhD
- Terry Hsiao, MIT

HIGH-END ECOSYSTEM

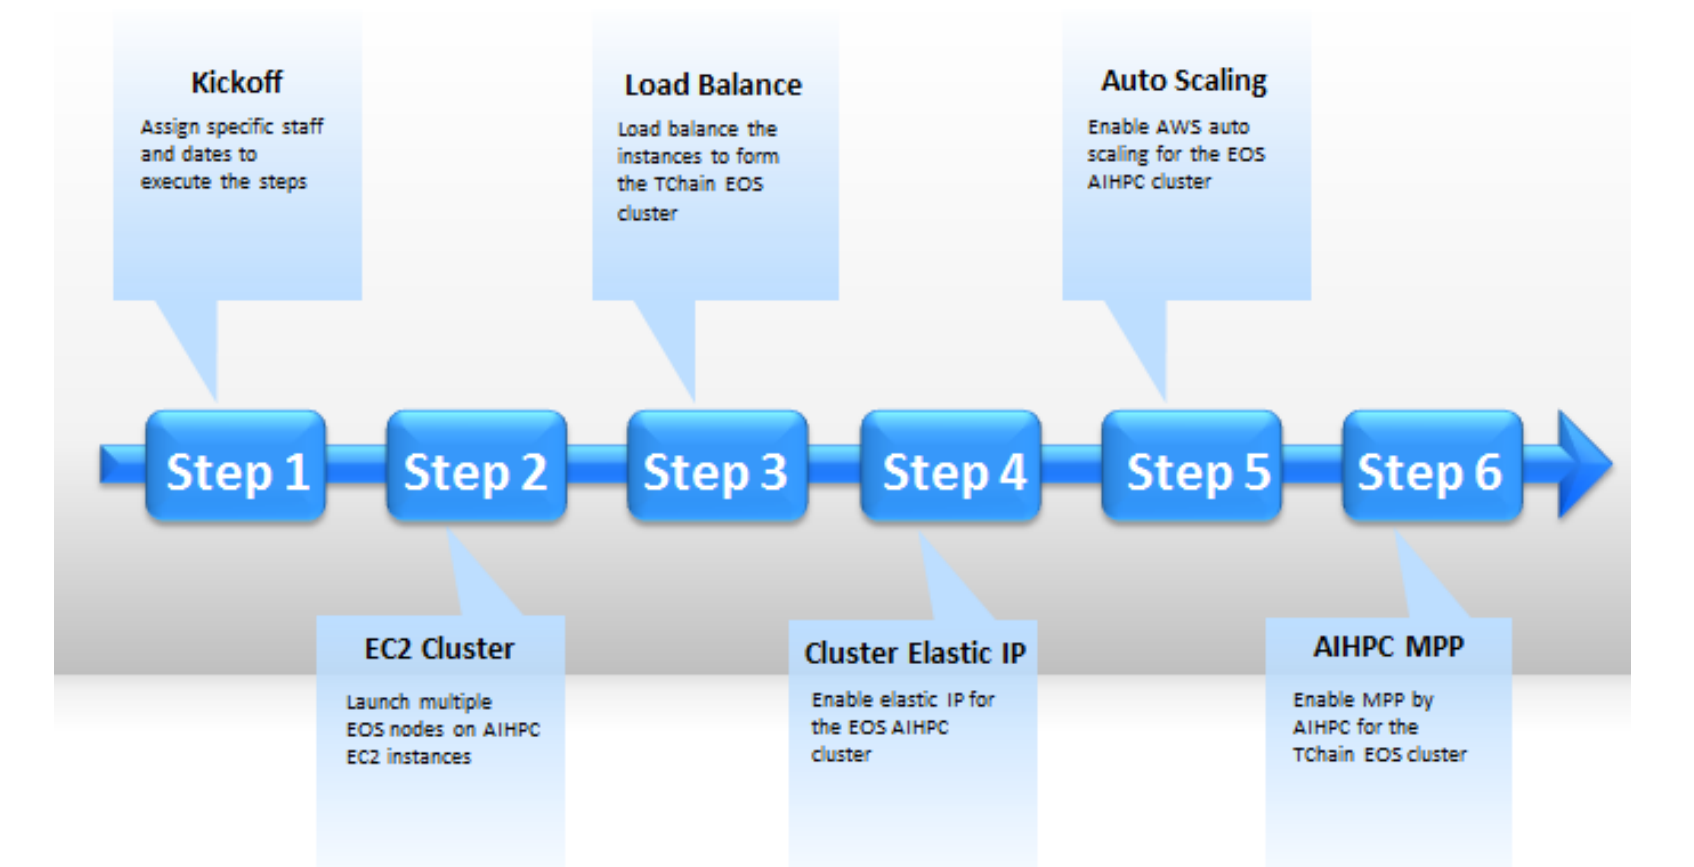

Enable Private Peer-to-peer Decentralized Digital Exchange

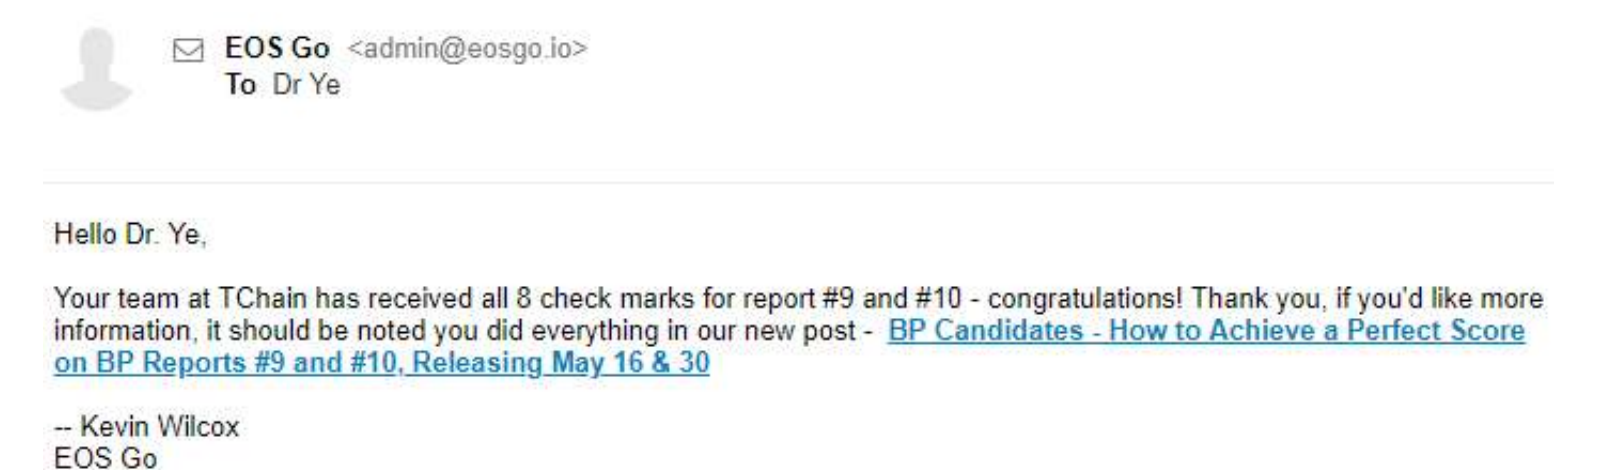

4 Roadmap to Success

- Received **all 8 check marks** for report #9 and #10 in EOS report rankings (same as Huobi)
- Rigorous** roadmap to success
- 1. Launch multiple EOS nodes on AIHPC EC2 instances
- 2. Load balance the instances to form the TChain EOS cluster
- 3. Enable elastic IP for the EOS AIHPC cluster
- 4. Enable AWS auto scaling for the EOS AIHPC cluster
- 5. Enable MPP by AIHPC for the TChain EOS cluster

Re: TChain EOS updates for the 8 criteria + team pictures requested by Kevin
